Attn. : Mr. Chris Chan
Clerk to Subcommittee to Follow Up Issues Relating to the Three-runway
System at the Hong Kong International Airport Legislative Council
Secretariat
Legislative Council Complex
1 Legislative Council Road
Central, Hong Kong

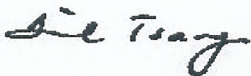

Dear Sir,

**Subcommittee to Follow Up Issues Relating to
The Third Runway System in the Hong Kong International Airport**

The aviation industry in Hong Kong has been growing for decades and is due to continue. Such growth is not only a worldwide trend but also derived from the rapid economic development in the region. The Airport is an integral part of Hong Kong industries, its synergy with others help to make Hong Kong a more efficient and affluent society for the all of us.

If limited by the two existing runways, the potential increase in air traffic may have to be diverted to other airports in the region and the economic benefit will be lost, probably forever. As a local citizen, I fully support Hong Kong Airport Authority to build the Third Runway.

Regards,

Tsang Ying Cheuk Daniel
