Dear Sir or Madam,

Please find the written submission below from Raffles Medical Group (HK) on "Expansion of Hong Kong International Airport into a Three-Runway System and its related impacts on the environment":

"While demand for air travel in the regional is ever increasing, competition in the regional is heating up as well. Being a leading air hub, Hong Kong International Airport needs to continuously reinvent itself to stay ahead.

As a long term investor in Hong Kong and business partner with Airport authority, Raffles Medical Group (Hong Kong) have full confidence that the Airport Authority would taken well considered measures to balance the needs of all stakeholders and act in the best of Hong Kong to bring the project for the 3rd run way forward."

Yours Sincerely,

Dr Clark Cheng
Deputy General Manager
Raffles Medical Group (HK)
