Subject : Setting up Postal Code for Hong Kong

Dear Sir,

I am writing to seek your consideration of pressing Hong Kong Post Office on setting up a Postal Code for Hong Kong so as to improve the efficiency and effectiveness of Hong Kong postal matters.

I have recently received a very important letter from France at mid June. But the letter was mailed out on 17 April 2015, meaning the letter took nearly two months to arrive. The delay caused me a lot of troubles. I also heard about this kind of delay in mailing process from my friends quite often.

On thinking about the incident, I think the delay of the mailing process is due to the lack of an international postal code for Hong Kong. As an international city, Hong Kong does need a proper postal code so as to improve its reliability, efficiency and effectiveness of Hong Kong postal matters. Further, it seems to me that the setting up a postal code is not a complicated matter.

I hope you can bring this up to the Panel on Economic Development for discussion and push the government or the Hong Kong Post Office to do that. Should you require any further details, I can be contacted at .

Looking forward to your favourable reply.

Yours sincerely,

Tam Chi Wah  
Citizen of Hong Kong
