 (By Fax Only – 2537 1851)

25 Nov 2015

Dear Sir

**Proposed introduction of the Registered Fire Engineer Scheme  
 by the Fire Services Department**

I refer to the LC Paper No. CB(2)142/15-16(03) for the discussion on 3.11.2015.

2. I have strong OBJECTION to the proposal.

3. Corporate members of Building Surveying Division of Hong Kong Institute of Surveyors with relevant fire engineering / safety experience should be recognized to carry out the fire safety risk assessment and certification process. I have no doubt that Building Surveyors in Fire Safety Section of Buildings Department have sufficient experience in the subject areas.

4. My comments on the proposals are as follows:-

- Re para. 7, 8, 11, 12, 13 and 14 Registered Fire Engineers (RFE) should be replaced by Registered Fire Professionals (RFP).
- Re para. 9, all reference to Engineers Registration Ordinance should be deleted.
- Re para. 10, Surveyors Registration Board, HKIS or HKIS (BSD) should be included in the Registration Committee.

5. If you have any query, please contact the undersigned at 2626 1432.

Yours faithfully

Anderson C.B. CHAN  
 (Chairman of BDSA)

cc Hon Tony TSE (info@tonytsewaichuen.com)
