CHAIRMAN
SUBCOMMITTEE OF
ETHNIC MINORITY COMMITTEE
LEGCO HKSAR.

Dear Sir,

Sorry for late submission, but we are submission following present situation for your kind consideration:-

- 1) Govt Home affairs Bureau is solving ethnic minorities problems/difficulties very slow processing and with lengthy communication. Improve their procedures.
- 2) Our organization already applied one place for our south Asian community at Ngau Kok Area but still in pending since 5 years while we are completed all requirements. In this way how can we work better for community.
- 3) As per present situation of high price living life in Hong Kong, we are suggest subcommittee to consider that Hong Kong Housing Authority allocate and offer one premises at their every new project for ethnic minority youth & child center, it is easy to promote ethnic minority work. As per their welfare vetting policy rates. Besides, we do not know why HK housing department could not release such these places/venues. While there are available places/venue for this task.
- 4) Now our community is constantly increasing but we are facing difficulty due to lack of proper venue/place and facilities.
- 5) If the committee does good decisions, and concerned departments provide us venue for community, it will not only promote community work, but also can be controlled by many crimes in ethnic minorities' community.
- 6) In some Government offices/places, the religious word is restricted to allocate these venue/places from the HAB, HK Housing Deptt or Land Deptt, so it is also important to consider that all social, welfare, culture and general community works/activities include in the name of religion.

We should keep the committee together in every respect.
