

Hello everyone

My name is KHAN KHALID (KK) I am born in Hong Kong  
My family are the third generation living in Hong Kong

My Parents brothers and sisters and now my childrens

Thanks for giving me a chance to express my feeling that  
how we live in Hong Kong. I treat my self as a Hongkonger  
Hong Kong is my home,

When I was young I didn't have many opportunities to learn  
Cantonese it is coz we don't have many choices to select the  
local schools to study and improve our writing and speaking

I have very less choice to select my Primary School and Secondary  
school one was Li Cheng UK and Delia Hip Wo or Elles Cadorey for  
secondary. That was a only choice for us to study in Hong Kong  
as a government school. Except the private schools.

We learn English and French and no Chinese. French is not good  
the language for me as I live here in Hong Kong or my future in  
Hong Kong - All the work in <sup>(HK)</sup> such as government jobs and high  
level jobs basics requirement is Cantonese/Eng/Mandarin now.  
That means there are no chance for me to get that jobs

Now my children is studying in local schools of Hong Kong.

It was very difficult for me to find them local schools

When the teachers ask my children do you know how to speak  
Cantonese if you say no they mostly reject them.

The school will also say we use Chinese to teach the students  
your child will be difficult to catch up. If the school not  
willing to teach who will teach them?

In a day most of the time childrens spend there time in School in front of teachers if the teachers doesn't want to teach who will teach them. Parents can support them only not to teach. In Hong Kong All locals school should accepte any Ethnic Minorities students to study. Since childhood age is easy to learn not to come my age and learn is very diffaultly.

I can not teach my children homework cos i dont know how to write in chinese but i know my children can and will cos they start there basic since kindergarden in local schools. that will all benifit future Hong Kong. If you treat us as a Hong Kongers. Hong Kong can be a colorfull city.

At last i want to say Hong Kong is my home We are also Hong Kongers.
