

教育事務委員會
Panel on Education

在2017年7月10日會議上就議程項目
"支持優質教育的優先措施"通過的議案

Motion passed under the agenda item
"Priority Measures to Support Quality Education"
at the meeting on 10 July 2017

議案措辭

現時基層學童家中電腦老舊的情況普遍，部分學童缺乏基本的上網學習條件，無法應付現時的教育需要。而政府現時有關資訊科技的支援並未能照顧基層學童的需要。本委員會促請政府為基層兒童設立購買電腦及上網費用津貼，並且採用實報實銷的形式，從而直接讓約33萬的基層學生受惠，而這也屬優質教育的優先措施。

(邵家臻議員動議)

Wording of the Motion

(Translation)

As the home-use computers of grass-roots students are usually old and outdated at present, some students are deprived of the basic conditions for online learning and are therefore unable to cope with the prevailing educational needs. Moreover, the current information technology support provided by the Government cannot cater for the needs of grass-roots students. This Panel urges the Government to provide, on a reimbursement basis, subsidies to grass-roots children for purchase of computers and payment of Internet access charges, so as to bring direct benefits to about 330 000 grass-roots students, which is also a priority measure for the provision of quality education.

(Moved by Hon SHIU Ka-chun)
