

HK ivory ban

Dear Legco,

I am a student at ESF South Island School and we have just watched a movie called the ivory game, which is about illegal ivory trading and smuggling. I would like to see a full and actual ban on all illegal ivory trading, because this is not acceptable and we can't let this happen. Our generation would really want to witness more animals, not the trunks of killed elephants. And I would also request NO compensation to the traders with stock. It's their fault if they go out of business.

Regards,
