

**Ban of ivory trade in Hong Kong**

Dear LegCo,

As a citizen of Hong Kong, I am disgusted and horrified towards the fact that Hong Kong has the world's biggest retail ivory market. Not only is the killing of elephants for ivory downright cruel, it will also one day lead to the elephant species being extinct in this world. I will not let this trade keep on happening in front of my eyes.

That is why I am strongly supporting the ban of ivory in Hong Kong, there should be no compensation to the traders.

Thank you.
