Dear sir/madam,

I am writing in support of the ivory ban WITHOUT compensation.

If compensation is allowed, more elephants will be killed and the people who try to protect them as well. It will harm Hong Kong's reputation. Even China banned it without compensation AND much sooner than Hong Kong. Compensation with taxpayers' money is unethical. Knowingly Allow for more killing is immoral. If compensation is allowed, the Legco will have blood on their hands.

Please support the ivory ban WITHOUT compensation. Please help save the lives of the elephants and the people who are willing to sacrifice their own lives to do the right thing.

Yours sincerely,

Law Hark Man
