

Ivory Trading in Hong Kong

To Whom it May Concern

I am a Hong Kong resident for 24 years and I am seeking your resolve to stop the trading of Ivory in Hong Kong.

This trade is supporting a black market of illegal ivory and corruption beyond the trading shops and even CHINA has seen this.

Please DO NOT allow compensation of the traders – as this will both encourage the trading and also mean ivory from other countries will be brought here to sell.

Ivory is valueless if you make it so – and if it is valueless the last remaining elephants will be saved.

PLEASE do your responsible duty and BAN IVORY SALES and do not compensate the traders – supporting ivory sales on any level is inhuman and unsustainable.

Thankyou
Megan Inglis Davies
