

Protect endangered animals and plants

To the committee,

I am Emma, a resident of Hong Kong. And I hope my children and grandchildren can still have the privilege of living with beautiful animals on the earth together.

I request that Hong Kong legislative council can ban ivory trade without compensating the ivory traders. Compensation for traders will cause more poaching and further destruction of our precious elephant populations. To save the elephants we need to restrict trade and increase punishment for the sellers and traffickers. Offering compensation would be rewarding those who seek to profit from murdering elephants.

Best regards,
Emma Bi
