Please respond to hinson man [REDACTED]

As a tax payer, I doubt why the government spend public money on such a large group of foreigners but not on local Hong K0ng people.

The Non-ethnic Chinese are responsible for the high crime rate in Hong Kong.

The Government is attracting them to come to Hong Kong because of its kindness. Hong Kong is such a small place to accomodate them. They are never willing to accept our culture or to learn English. Why are we offering interpreters and lawyers free of charge to them ever since they arrive in HK.

They are competing our medical resources, housing, schoolings, job opportunities.

Please detain them until they are sent back to their countries. I appeal to the law enforcement agenccies to stop all of them from coming to Hong K0ng.

Enough is enough.
