

Panel on Environmental Affairs

Follow-up actions arising from the meeting on 28 November 2016

Agenda item VI — Proposal to control volatile organic compounds ("VOC") in fountain solutions and printing machine cleansing agents

The Administration was requested to supplement information on the prescribed VOC content limits respectively for fountain solutions and printing machine cleansing agents under the existing regulatory regime of the Mainland, comparing to the proposed limits of 80 grams per litre ("g/l") and 500 g/l respectively for the said sources in Hong Kong.
