

Panel on Environmental Affairs

Follow-up actions arising from the meeting on 19 December 2016

Agenda item V — Proposal to tighten emission standards of newly registered vehicles

The Administration is requested to provide:

- (a) information on recent studies and findings on the emission performance of diesel private cars, and the latest developments on the control of diesel vehicles in the member cities of the C40 Cities Climate Leadership Group;
- (b) implementation progress and effectiveness of the Pilot Green Transport Fund, including whether any models of electric and/or hybrid vehicles under trial have been found suitable for introduction into Hong Kong;
- (c) a statistical analysis on the effectiveness of the Government's measures, in particular the control of vehicle emissions, in improving roadside air quality and reducing premature deaths caused by air pollution; and
- (d) detailed information on the support provided to the vehicle maintenance trade to complement the measure of tightening the vehicle emission standards to Euro VI, including the number of vehicle maintenance seminars held/planned to be held, the existing and projected numbers of vehicle maintenance workshops and vehicle mechanics equipped with the required maintenance skills and knowledge before implementation of the Euro VI emission standards.
