I write to support the EPD's Proposed Complete Ban of the Ivory Trade.

I am sure you are already familiar with the arguments. Please ensure the enactment of this Ban.

Hong Kong is a key hub of the Ivory Trade. Without Hong Kong's active participation, elephants are liable to become extinct within a very few decades. This would be a huge world tragedy. Please do not pander to the greed of the Traders.

Yours sincerely,  
Dr John Wedderburn.
