To whom it may concern.

1. I SUPPORT the Hong Kong government's ivory ban. The industry in HK has sufficient time to adjust to the market. Their stubborn refusal to adapt should not be rewarded.
2. I SUPPORT the Hong Kong government's proposed increase in penalties for wildlife crime. Our world is already reaching past sustainability. Our elephants are just one of the many sufferers. Only by acting now can we ensure that our future generations can enjoy our world.
3. I OPPOSE the Hong Kong government paying compensation to the Hong Kong ivory traders for their ivory stocks. Such actions should not be rewarded. Their continuous and flagrant disregard for established laws do not merit such a response. It is disgusting that such an industry can even be remotely be supported, especially in such a international city such as Hong Kong.
