

Ivory Ban: Ban, penalize, and don't compensate!

Dear HKSAR Legco,

Please continue to protect our world's elephants and enforce a ban on the ivory trade.

I'm a Canadian living in HKSAR and I fully support and publicize (through social media) your ban on ivory - kudos!

I support the idea that HKSAR should increase penalties on those who are in violation of laws that protect our wildlife.

I beg you NOT to pay any compensation to those who lose money in ivory stocks because of your stance. I OPPOSE this idea. Ivory stocks are appalling and should be an embarrassment to hold by the owner. Why should HKSAR pay for that? Save your money for your community: social welfare department, education department, etc!

Sincerely,

Erin Gillespie
