Attn:

Chairman
LegCo Environmental Affairs Panel
Hong Kong

Dear Sir

The ivory ban should be enacted NOW - please do not give in to pressure from ivory traders who want more years to phase it out. The rate that elephants are being butchered for Africa is absolutely horrific. Every single death impacts the viability of the species.

Elephants are intelligent, beautiful creatures and they have a place in the world and deserve to live their natural lifespan without being butchered for their tusks.

Please do the right thing. Stop the ivory trade immediately.

I beseech you.

Faithfully

Gigi Duncan
