Dear sir

In my opinion, I strongly against the law to prohibit the trading. If you need protection about ivory. Please with enough compensation to those owner. This is their life time own asset we cannot take it away without reson. Hong Kong is a city well protect private property or asset. It does not make any sense to prohibit the right to trade. Ivory are not illegal drugs. Why you can stop? Serious damage name of free economy city.

Yours sincerely

Chung Pui Kwan
