Dear Sir/Madam

Please note that the i was strongly disagree the government use the law to control the ivory trading.

As i know there are still many owner still own a lot stock of ivory, it is unfair to them. Their ivory stock are their own assets. The government stopped the trading of ivory thats mean the owners are totally lost. The government sould have sufficient compensation to them to cover their loss, not just work by mouth and do nothing.

Thanks  
Grace
