To whom it may concern

I would like to take this opportunity to express my whole hearted support for a ban on the ivory trade in Hong Kong. Hong Kong being a major hub for this trade as Asia's World City should no longer be complicit in this respect.

In addition it is vital penalties for illicit wildlife trade are increased and no compensation be paid out with respect to the ban.

Having lived and worked in Hong Kong for over 25 years and done post graduate studies on this destructive and cruel trade I sincerely wish Hong Kong can help bring an end to this major welfare and conservation issue.

Kind Regards

Dr Jane Gray
