Dear Sirs,

I urge you to please, without delay, legislate to halt all forms of ivory trading in Hong Kong.

In doing so, your actions would gain enormous appreciation and relief, worldwide.

Relief that the African elephant will be saved from the unsustainable slaughter and poaching that occurs to feed this trade.

An iniquitous trade that, knowingly or unknowingly, is often funded, transited or laundered through Hong Kong.

I am a retired Senior Veterinary Officer, having spent 22 years in the Civil Service and have a solid knowledge of the trade in animals and animal by-products in Hong Kong.

Yours sincerely,

Dr. Richard Barry Bousfield.
