

My support on Ivory Ban in Hong Kong
Pauline Ng to: panel_ea

Dear Sir / Madam

I am writing to express my support to the Hong Kong Government on ivory ban and that the local authorities should increase the penalty for wildlife crime & ivory poaching.

I STRONGLY OPPOSE the Hong Kong Government in paying any compensation of any kind to the Hong Kong ivory traders for their ivory stocks.

I have been deeply shocked to learn about the scientific data obtained from a census founded by Microsoft's founder Mr. Paul Allen 3-4 years ago along with a team of 90 scientists, 6 NGOs... let us all give these animals a chance to live with their loved ones same as we, human beings need to live with our loved ones.

Tears ran into my eyes when I read than in the North of Cameroon, less than 150 elephants were found in the Census... if nothing is done to support the elephants, in the next decade, we could lose half of the elephants in Africa!

Thank you
