04/06/2017 00:22

Dear Sir,

Recently I saw about a report on elephants and ivory trade. I would like to express that I support HK government to ban ivory trade.

Only by stopping the trade that we can save elephants. I also support the proposed increase in penalties of wildlife crime. Although some of the local merchants claimed they still have a huge stock but one day the government does not stop this, the sell and buy will not stop. I oppose paying compensation to the ivory traders.

Thanks you.

Glad Cheung
