Hi

My name is Megan Gardner from Australia and I am emailing you today to give my support for a ban of Ivory (elephant tusks! Let's not sugar coat it!) in Hong Kong. I urge the Legislative Council to refrain from supporting any action that compensates Ivory traders.

I am sure you are aware that all Ivory comes from murdered elephants that have families and have deep emotional feelings and bonds. Only Ivory belongs on elephants NOT on a shelf in a shop or a home. It's time to stop the killing for material trinkets. Please, time is running out for these beautiful iconic animals.

Thank you

Megan Gardner
