

Ivory ban in HK

I SUPPORT the IVORY BAN in Hong Kong to take action to stop ivory poaching, because people are breaking laws to poach ivory from animals to sell them illegally.

THIS IS WRONG. About 100 elephants are killed each day just for their 'valuable' horns, and some rhino species are extinct because they are poached for their ivory horns.

WHY don't they just de-horn the animals and then leave them in the wild without killing them?

Poachers just don't care about these animals. **THEY SHOULD BE.**

They just shoot them dead without mercy. They are so ruthless.

so, I DEFINETELY SUPPORT the IVORY BAN in Hong Kong to take action to stop ivory poaching.
