

**Hong Kong ivory ban**  
Heather Craig to: panel\_ea

To Whom It May Concern,

I strongly support the Hong Kong Government's ivory ban. It is critical that this happens. Elephants will be extinct in a matter of years if nothing is done to stop the poaching of these wonderful animals for their ivory.

There should also be a considerable increase in penalties for wildlife crime to deter these activities.

I also oppose the Hong Kong Government compensating Hong Kong ivory traders for their ivory stock. This just continues to place value on ivory which perpetuates the problem.

Sincerely,

Heather Craig  
Canada.

Say no to Ivory!
