Dear Sir/Madam,

It is a cruel act to get elephants killed just for trading in ivory. We should end this bloody ivory trade and protect the elephants. Indeed, our Hong Kong government should take the first step to ban this kind of business.

Apart from prohibiting the sale of ivory from elephants, please also make a law regarding aggravated punishment for wildlife crime. All wildlife animals have their own rights to live. They should not be deprived of their life.

Thank you for your consideration!

Yours Sincerely,

Sally Lee
