Ivory letter

Dear legco

I support that the Hong Kong government should ban ivory.

I like elephants and if we do not ban ivory, elephants, might be gone and we might never ever see elephants again.

They also have life just like use and if you don't ban ivory your children might not ever see an elephant, so I think ivory should be banned.

If people sell ivory or deal in ivory they should got to jail for several years and they also have to pay a large money fine as well. dollars

I do not think the Hong Kong Government should pay compensation to the Hong Kong ivory traders for their ivory stocks either.

Your sincerely

Marco Zeng
