Hello,

My Name is Adjia Hakem and I am from the UK.

I am extremely troubled by the way our planet's wildlife is being destroyed by the day, including the elephant population due to the demand of ivory. It seems every day I am reading about elephants being killed in the most cruel and painful way, just for their ivory. Elephant numbers are dwindling and supply for ivory demand can never be met. Elephants are on their way to fast extinction if the poaching continues at this rate.

I whole heartedly support all ivory trade worldwide. I totally back the Hong Kong Ivory Ban. Worldwide governments need to fight ivory trading and implement a total ivory ban.

Even legal ivory fuels the demand for more including illegal /poached ivory. I urge the Hong Kong Legislative Council to refrain from supporting any action that would compensate ivory traders.

I support and am proud of all your efforts for an ivory ban to help preserve our endangered species and stop the senseless and cruel killing.

Yours Sincerely,

Adjia Hakem
