My name is Ophelia and I live in the Pacific Northwest region of the United States and I love to travel, especially to countries that support wildlife conservation. I visited East Africa and fell in love with the wildlife there, especially elephants. Elephants are being poached at record number because of demand.

I support the shut down of ivory trade in Hong Kong and urge the Hong Kong Legislative Council to refrain from supporting any action that compensates ivory traders. Together, we can protect and help elephants continue to live and roam in the wild.

Sincerely,  
Ophelia Gua
