

Ban the import, re-export and possession of pre-Convention ivory

Please respond to "CJ Cheung"

Dear sir, madam,

The import, re-export and possession of pre-Convention ivory should be banned, because we should protect the life of elephants. Traders have been found to replenish old ivory stocks with newly poached ivory. They, as animal, can not say no. But we, as human, can do that for them. There is no argument to accept the import, re-export and possession of pre-Convention ivory. STOP IT!

Best,

CJ Cheung
