

Hong Kong Ivory Ban
soil to: panel_ea

05/06/2017 14:38

To whom it may concern:

I wholehearted support on the issue of the ban the import, re-export and possession of pre-Convention ivory for commercial purposes increase penalties for wildlife crime. As a Hongkonger, I love our nature and our unique economic or commercial environment of Hong Kong among the world. As a prominent international city, Hong Kong should ban this backward and unsustainable trade and in fact ivory trade has already banned in different countries.

Last but not the least, I am strongly to

- 1) support the Hong Kong government's ban on ivory trade
- 2) oppose any suggestion of compensation.

In welcoming the government's reinforced stance on the ban, it is to be hoped that you, as our representative will stand squarely with passing this law.

yours faithfully,

S Leung
