Dear Hon. Tanya Chan,

I am writing about the ivory trade ban, and the risk that the compensation issue may have a negative impact on the passing of the bill.

I feel very strongly that any form of compensation is immoral due to the nature of the trade, and I wholeheartedly support the government's proposal to entirely ban the ivory trade in all forms (imports, possession etc.), and any increase in penalties for those who violate such a ban,

Best regards,  
Annabel Botsford
