Hello,

My name is Laila, I live in the United Kingdom and I would like to express my support in the Hong King Ivory Ban.
I also would urge the Hing Kong Legislative Council to refrain from supporting any action that compensates ivory traders.

There should never be any support whatsoever towards any aspect of this trade or traders as the concentration should always have been and should now be to protect Elephants and Rhinos. I believe the traders have profited more than enough and it is not acceptable that any further profit be had whatsoever over this issue.

Thank you for your time snd I hope you do right by these animals to safeguard them for future generations.

Kind Regards,

Laila Parekh
