Dear Sir/Madam

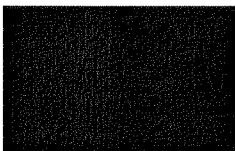

I am writing to you to express my support of the Hong Kong Ivory Ban which could do much to help counteract the brutal and relentless slaughter of elephants which has gone on over the centuries. We are all aware of the use of elephants by people in big game shooting and trophy hunting and the use of tusks from the West in the past and, sadly, some of this still happens but now they face yet another threat, the use of tusks in Chinese medicine and for trophies Elephants being slaughtered for ivory. Stop the cruel killings of elephants

Despite the fact that these highly intelligent and family orientated animals keep themselves to themselves mostly and pose little problem for humans, they are seen as a target and we must now show responsibility and try to group together to stop their imminent extinction Stop the slaughter: An elephant is killed every 15 minutes by poachers for its ivory tusks. As China has moved to help stop the trade we should not be dragging our heels and submit to the self interest of certain ivory traders; instead we should be part of the solution, one that future generations will thank us for and remember the day wildlife was finally respected.

Stop the slaughter: An elephant is killed every 15 minutes by poachers for ...

By Stuart Winter
AN elephant is slaughtered for its ivory every 15 minutes, conservationists are warning to mark World Elephant Day.
