For the attention of the Honourable Tanya Chan,

I am writing to inform you about the illegal ivory smuggling. At tomorrow's Leg Co meeting, we could make history by ensuring that ivory cannot be sold in Hong Kong anymore.

Help our government stand strong and defeat the evil of poaching elephants. Many will agree that killing elephants mercilessly and getting away with it is a serious crime. Imagine the thanks you would get if you help to make a change.

Yours Sincerely,

Mayuka Hashimoto of Kennedy School
