For the attention of the Honourable Tanya Chan,

Do you no how many elephants are killed in a day to make ivory?

The answer is 100 elephants and after 5 to 7 years they are probably gonna be extinct if people continue. So that is why I am writing to you to persuade you to stop the ivory smuggling. Elephants are in a lot of danger, so please make sure that no more ivory is sold in Hong Kong.

So please pass this on to everybody in the important meeting Tomorrow .

Yours sincerely,

Sera
