

Hong Kong's ivory trade
Josephine LAW [5S] to: panel_ea

05/06/2017 15:03

For the attention of the Honourable Tanya Chan,

Do you know how many elephants are killed every day?

The answer is AT LEAST 100 a day and after 5 years there will only be few elephant left in world.

Elephants are in danger because you guys are killing them by taking their tooth.

We will make history by ensuring ivory cannot be sold in Hong Kong.

So please pass this super duper important email on to people in government who can make a different.

your sincerely,

Josephine Law form Kennedy School 5s
