For the attention of Honourable Tanya Chan,

I am writing to inform you about the illegal ivory smuggling. If you could make my view clear at tomorrow's Legco meeting, I would be immensely happy.

We could make history by protecting elephants. Ivory poaching might be used to fund future terrorist attacks, and we have got to protect our city and others too. Can you imagine the thanks you would get for supporting this cause? Many individuals agree that Ivory poaching is wrong, and I implore you to see my point of view.

Yours Sincerely, Megan Ng of Kennedy School
