Panel on Financial Affairs

Meeting on 16 March 2017

**Updated background brief on the
Establishment of and financial arrangements for
the independent Insurance Authority**

Purpose

This paper provides background information on the establishment and financial arrangements of the independent Insurance Authority ("IIA"). It also gives a brief account of the major views and concerns raised by Members since the Fifth Legislative Council ("LegCo") on IIA's financial arrangements and related issues.

Background

2. The Insurance Companies (Amendment) Ordinance 2015 ("the Amendment Ordinance")¹ was enacted on 10 July 2015 to amend the Insurance Companies Ordinance (Cap. 41) ("ICO") to provide for, among others, the establishment of IIA to take over the statutory functions of the Office of the Commissioner of Insurance ("OCI") (a government department) for regulating insurance companies and the supervisory functions of the existing three Self-Regulatory Organizations ("SROs").²

¹ The Insurance Companies (Amendment) Ordinance 2015 provides for, inter alia, the establishment of the independent Insurance Authority ("IIA"), the enforcement powers of IIA, the establishment of the Insurance Appeals Tribunal and a statutory licensing regime for insurance intermediaries.

² The three Self-Regulatory Organizations are the Insurance Agents Registration Board established under the Hong Kong Federation of Insurers, the Hong Kong Confederation of Insurance Brokers and the Professional Insurance Brokers Association.

3. To allow for a smooth transition from the existing regulatory regime from OCI to IIA, the Amendment Ordinance is being implemented in three stages as follows:

Stage 1: To establish the Provisional Insurance Authority ("PIA") ³ (without regulatory functions and co-exists with OCI)	December 2015
Stage 2: PIA to be renamed as IIA and replaces OCI by taking over its regulatory functions (the self-regulatory regime for insurance intermediaries remains unchanged)	The second quarter of 2017
Stage 3: IIA to implement the statutory licensing regime and take over the regulation of insurance intermediaries from the three SROs	Two to three years from the establishment of PIA

4. PIA was established on 7 December 2015.⁴ PIA is not vested with any regulatory powers before it becomes the IIA to take over the duties of OCI. On 28 December 2015, the Chief Executive ("CE") announced the appointment of the Chairperson and seven Non-executive Directors of IIA for a term of three years from 28 December 2015 to 27 December 2018.

Financial arrangements for the independent Insurance Authority

5. The new sections 5A to 5G of ICO set out the accounting and financial arrangements of IIA. The main provisions include requirements for IIA to prepare and submit its corporate plan (including the estimates of income and expenditure) for the next financial year to the Financial Secretary ("FS") for approval and submit annual reports to FS; FS to table IIA's estimates, annual reports and audited financial statements before LegCo; and the Government to pay IIA out of the general revenue the monies appropriated by LegCo. As a check and balance, the Director of Audit may conduct value-for-money audit on IIA.

³ The new section 4AAA(2) of the Insurance Companies Ordinance (Cap. 41) provides that when IIA is established, it is automatically renamed as "Provisional Insurance Authority" in English and "臨時保險業監管局" in Chinese for the period from its inception to the disbandment of Office of the Commissioner of Insurance ("OCI").

⁴ The Insurance Companies (Amendment) Ordinance 2015 (Commencement) Notice 2015 ("Commencement Notice") was tabled at the Legislative Council meeting of 14 October 2015. No subcommittee was formed for scrutiny of the Commencement Notice.

6. To enhance transparency in the preparation of IIA's annual estimates, during the scrutiny of the Insurance Companies (Amendment) Bill 2014, the Administration has taken on board the suggestion of the relevant Bills Committee for IIA to brief the Panel on Financial Affairs ("FA Panel") on the main features of its proposed budget prior to seeking approval by FS.

Income of the independent Insurance Authority

7. The Government's policy objective is for IIA to fully recover its costs via income from the market and become financially independent of the Government.⁵ It is the long-term target that about 70% of the expenditure of IIA will be met by levy and the remaining 30% by various authorization, licence and user fees.⁶ In respect of the levy, IIA will impose a levy of 0.1% on insurance premiums for all insurance policies (capped at \$100 for life policies and \$5,000 for non-life policies), which will be implemented through an incremental approach,⁷ and exempt premiums of reinsurance contracts from the levy. As regards authorization, licence and user fees, they will be payable by all insurers and licensed intermediaries.

8. Under the new sections 128 to 134 of ICO, all fees and levies of IIA are to be stipulated in regulations and orders to be made by CE which are subsidiary

⁵ According to the Administration, OCI currently recovers around one-third of its annual operating cost from the annual licence fees paid by insurers. The remaining cost is subsidized by the Government. OCI currently does not impose any levies on insurance premiums.

⁶ Authorization fees are payable by insurance companies, licence fees are payable by insurance intermediaries and user fees are charged for provision of specific services. Levies are collected from insurance premiums.

⁷ According to the information provided by the Administration in November 2016 (CB(1)78/16-17(08)), IIA's target level of levy in the first five years after its establishment will be in accordance with the following schedule –

	Year 1		Year 2	Year 3	Year 4	Year 5 and after
	(from commencement of Stage 2 to 1 Jan 2018)	(from 1 Jan 2018)	(from 1 Apr 2018)	(from 1 Apr 2019)	(from 1 Apr 2020)	(from 1 Apr 2021)
Market levy as a % on insurance premiums	0%	0.04%		0.06%	0.085%	0.1%

legislation subject to negative vetting of LegCo. The new section 135 of ICO provides for the mechanism for reduction of IIA's levies. The policy intent is that when the reserves of IIA are more than twice its estimated operating expenses for the financial year (after deducting depreciations and all provisions) and that IIA has no outstanding borrowing, IIA has to consult FS with a view to recommending to CE in Council that the rate or amount of a levy be reduced.

Funding for the establishment of the independent Insurance Authority

9. To help meet part of IIA's expenses in the initial five years before it achieves the target levels of fees and levy, the Administration's proposal is to provide a lump sum provision to IIA on its inception. On 7 December 2015, the Administration briefed FA Panel on its funding proposal for the establishment of IIA and the exit arrangement for the existing Insurance Officers in OCI. A lump sum provision of \$650 million⁸ was proposed for meeting the first four years of operation of IIA. During the examination of the Estimates of Expenditure 2016-2017 in April 2016, the Administration explained that \$450 million of the lump sum provision for meeting the shortfall of IIA's budget for the first two years had been included in the Estimates of Expenditure 2016-2017. The Administration plans to provide the remaining \$200 million to IIA tentatively in 2018-2019, subject to the progress of the transitional work from the existing regulatory regime to the new one.

Budget of the independent Insurance Authority for the financial year 2016-2017

10. FA Panel was briefed on IIA's proposed budget for 2016-2017 at the meeting on 6 June 2016. The estimated income of IIA in 2016-2017 was \$457.8 million (including the lump sum provision of \$450 million as mentioned in paragraph 9 above) and the estimated operating and capital expenditure were \$100.2 million and \$28.7 million respectively. It was projected that there would be an operating reserve of some \$350 million.

⁸ Based on a consultancy study conducted by the Administration in 2010, a lump sum of \$500 million was required as seed money and contingency reserve to support IIA's initial years of operation. The Administration updated the estimates in November 2015 and revised the lump sum to \$650 million having regard to the additional regulatory functions of OCI (including enforcement of the anti-money laundering regulatory regime) since the study in 2010 to be taken over by IIA. The Administration also advised that based on 2010 consultancy study, IIA would have an establishment of about 250 staff members at its inception. As for OCI, the number of staff members was 150 as in mid-2014. As indicated in the updated consultancy study in November 2015, IIA will have an initial establishment of 299 staff members.

Subsidiary legislation relating to the operation of the independent Insurance Authority

11. At the meeting on 15 November 2016, FA Panel was briefed on the proposed subsidiary legislation for IIA to collect levy on insurance premiums from policy holders, authorization fees from insurance companies, and other fees on specific services provided by IIA. According to the Government, the collection of levy will start on 1 January 2018, and the collection of authorization and user fees will tie in with the date when IIA takes over OCI's statutory functions. The Government's target is to table the subsidiary legislation concerned before LegCo for negative vetting in the beginning of 2017.

Concerns and views expressed by Members

12. The major views and concerns expressed by the Bills Committee on the Insurance Companies (Amendment) Bill 2014 and FA Panel relating to the financial arrangements for IIA, the funding proposal for the establishment of IIA, the collection of levy and fees by IIA, and the regulatory work of IIA are summarized in the ensuing paragraphs.

Financing mechanism and estimates of the independent Insurance Authority

13. Members of the Bills Committee noted that IIA was empowered to appoint its staff and consultants, and determine their remuneration and terms and conditions. They stressed the need to put in place a mechanism for regulating the size of IIA to prevent over-expansion, and suggested specifying clearly in the Amendment Ordinance that IIA must decide on the above matters according to its "actual needs" and in a "reasonable manner". Moreover, with a view to enhancing financial prudence and discipline of IIA, the Bills Committee considered that part of the proposed start-up funds provided by the Government to IIA should be in the form of a loan.

14. The Administration explained that IIA would have a larger establishment than OCI mainly because IIA would take up the additional responsibility of administering the licensing system for insurance intermediaries. The Amendment Ordinance required that IIA's annual estimates, which included estimated staff costs and professional service fees, to be approved by FS and the approved estimates must be tabled before LegCo. These measures would provide an effective check and balance. The Administration stressed the need to provide IIA with operational flexibility in employing and engaging suitable talents and determining the appropriate level of remuneration having regard to the actual circumstances and prevailing market situations so that IIA could cope

with the regulatory challenges effectively and respond swiftly to market changes. This was in line with the practice of other financial regulators, such as the Securities and Futures Commission ("SFC") and the Mandatory Provident Fund Schemes Authority ("MPFA"). The Administration also took note of the Bills Committee's suggestion that part of the proposed start-up funds for IIA should be provided in the form of a loan, and undertook to consult FA Panel before seeking the relevant funding approval from the Finance Committee.

15. During the discussion at the FA Panel meeting on 7 December 2015, members enquired whether the Administration would top up the shortfall should the proposed lump sum provision of \$650 million for IIA was insufficient. The Administration advised that if the proposed lump sum provision turned out to be inadequate, the Administration might consider different options including the provision of additional funding to IIA in the form of a loan. There were provisions in the Amendment Ordinance enabling IIA to borrow money with the approval of FS. Given the healthy and stable development of the insurance industry in the previous years on which basis the income projection of IIA had been worked out, it was envisaged that the proposed \$650 million would be sufficient to support the operation of IIA in the initial five to six years.

Levy on insurance premiums

16. Some members of the Bills Committee opined that the levy to be collected by IIA should not be borne by policy holders on concern that this might increase the price of insurance products. Some FA Panel members were of the view that insurers and insurance intermediaries should bear IIA's expenditure because they would benefit from the new regulatory regime. They reiterated the need for IIA to exercise vigilance in controlling its expenditure so as to contain the levels of levy and fees to be collected from policy holders and the industry.

17. The Administration advised that one of the main objectives of IIA was to protect policy holders, and based on the "user-pay" principle it would be justified to collect levies from policy holders. It was also important for IIA to be financially independent to perform its statutory regulatory functions in an equitable and impartial manner. The Administration further pointed out that insurance companies were required to pay variable authorization fee in addition to fixed authorization fee under the new regulatory regime.

18. At the FA Panel meeting on 15 November 2016, some members considered that while the proposed levy on insurance premiums would have little impact on policy holders as the amount involved was relatively small and should be affordable by policy holders, they urged the Administration to step up efforts in arranging publicity and public education on the proposed levy to enhance policy holders' understanding of the details. Moreover, the

Administration should also expedite its work with IIA in developing various guidelines, including those on levy collection. The Administration advised that it had been liaising with IIA and the insurance industry in formulating relevant guidelines for implementing the new regulatory regime, and arranging publicity campaigns, including the provision of hotline services.

Recruitment policies of the independent Insurance Authority

19. At the FA Panel meetings on 7 December 2015 and 6 June 2016, some members enquired about the recruitment policies of IIA, including how it would benchmark the remuneration of its staff. The Administration advised that IIA would formulate its own recruitment policies, including staff salaries and employment terms. IIA might engage a human resources consultant for advice, and consider adopting arrangements similar to those of other statutory regulatory bodies like SFC and MPFA. IIA would also make reference to the wage levels of other financial regulators in determining the remuneration of its own staff. IIA would recruit its staff in phases and explore arrangements for experienced staff members in the industry and other financial regulators to be seconded to IIA.

Regulatory work of the independent Insurance Authority

20. At the FA Panel meeting on 6 June 2016, some members called on IIA to enhance the regulation of Investment-Linked Assurance Schemes ("ILAS") products, and enquired about the division of responsibilities between SFC, OCI (and the future IIA) in regulating the design, risk disclosure and sale process of such products. They stressed the importance for the regulators concerned to adopt consistent regulatory standards.

21. PIA advised that the relevant regulatory standards of SFC and IIA should be consistent. IIA would liaise with SFC to enhance cross-regulator co-ordination whenever necessary, and would step up effort in promoting public education, and enhancing the professional knowledge and conduct of insurance intermediaries. The Administration pointed out that ILAS products, like other investment products, had to comply with the disclosure requirements set by SFC in order to be authorized for sale in the market. OCI had issued Guidance Note on Underwriting Class C Business (GN15) and Guidance Note on Underwriting Long Term Insurance Business (other than Class C Business) (GN16) to provide guidance to the industry on treating customers fairly in designing long-term and ILAS products. It was observed that these guidelines were effective in addressing a range of regulatory issues from product design to the sales process.

22. At the FA Panel meeting on 6 June 2016, some members suggested that IIA should look into the complaint cases being handled by the three SROs and

take appropriate follow-up actions. PIA responded that it had noted that the existing complaint handling mechanism administered by the SROs was inconsistent. IIA would review the complaint handling mechanism to ensure its efficiency and effectiveness.

23. At the FA Panel meeting on 15 November 2016, members enquired about the progress of the preparatory work of IIA. The Administration advised that it would liaise with IIA and the insurance industry in formulating guidelines on various matters for implementing the new regulatory regime. Besides, relevant subsidiary legislation relating to the operation of IIA was under preparation. As PIA was still recruiting its staff, the Financial Services and the Treasury Bureau was actively involved in the relevant preparatory work.

Latest development

24. The Administration will brief FA Panel on the main features of IIA's proposed budget for 2017-2018 at the meeting to be held on 16 March 2017.
