

**Submission from AELLA Asia**

Our submission for tomorrow meeting is as below...

1. Reduce excess unwanted pets
  - i) by stopping pet shops from selling animals,
  - ii) and by rolling out tnr territory wide.
2. Implement the animal welfare law recommendations of the committee that included Dr. Fiona Whitehouse and Dr. Amanda Whitfort.
3. Increase the annual grant to NGOs for education in schools.

The problems need to be tackled at root. If pets were more scare, they would be valued more.

Thanks with kind regards,

---
