Hong Kong Housing Society – Rent Adjustment of Rental Estates and Assistance Rendered to Tenants with Financial Difficulty

1. **Background information**

- 1.1 As indicated in **Appendix 1**, there are a total of 32,628 units in 20 rental estates under Hong Kong Housing Society (HKHS), housing around 85,000 residents.
- 1.2 Rental units fall into two groups, A and B. Group A caters for the lower-income families while Group B targets families of relatively higher income. Apart from the regular rental units, HKHS also provides some 900 Elderly Persons Flats in nine of its estates for the senior citizens at concessionary rents. For most of the estates, the concessionary rent is around 40%-70% of the regular rental unit of the same estate.
- 1.3 In recent years, the operating and repair costs of the rental estates keep increasing and the consumer price index is on the rise. The salary index has also gone up due to the minimum wage policy. Moreover, to improve the quality of living of the residents, substantial resources are required for repair and maintenance as well as improvement works on the ageing rental estates. As nine of these rental estates are over 40 years old, it is also necessary to plan and prepare for redevelopment in the long run.
- 1.4 Currently, the rental income from the estates just suffices to cover the day-to-day operating expenses and cost of facilities upgrading. The redevelopment of the estates in future requires an enormous budget. We must therefore be prudent in our financial management to ensure HKHS can sustain its development to continue serving the people of Hong Kong.

2. **Rent Adjustment**

- 2.1 Domestic rents will be reviewed every two years. Rent adjustment is mainly based on the operating costs which include the following specific factors:
 - rental income must be sufficient to cover the recurrent management expenses, tenancy administration costs, Rates (if inclusive in rent) and Government Rents; and
 - provision for major improvement works, repair and maintenance

- 2.2 Besides, we also take into account other economic statistics (such as the inflation rate and salary index), affordability of tenants, etc.
- 2.3 The existing mechanism has been adopted for years and we consider it effective. With reference to the household income changes and the market rents, rent increases of HKHS in the past years were relatively mild.

Year	Rent Increase by HKHS
2010	3%
2012	6%
2014	8%
2016	8%

3. **Assistance rendered to tenants with financial difficulty**

- 3.1 According to our record, some 9% of the tenants are Comprehensive Social Security Assistance Scheme (CSSA) recipients. As for the elderly households, about 20% of them are CSSA recipients. The rental allowance payable under CSSA already caters for the need of rental payment for these tenants. In case a tenant has long term financial difficulties in paying rent, he/she can ask to be transferred to other estates with lower rent. For senior tenants, there is one more alternative for transfer to our Elderly Persons Flats which are charged at concessionary rent.
- 3.2 To help tenants in need to seek appropriate assistance, we have arranged for registered social workers (i.e. Service Coordinators) to station in the rental estates to follow up individual cases. We also review from time to time the channel and approach in providing appropriate assistance to tenants with financial difficulties. In the past 3 years, we have dealt with 146 cases where tenants have difficulty in rent payment, expenses for decoration, purchase of furniture/electrical appliances and financial hardship. With proper referrals by our Service Coordinators, tenants of many cases were able to obtain assistance in cash (one-off or regular) or in kind from Government or other organizations such as The Community Chest of Hong Kong, Caritas Hong Kong, St. James' Settlement, The Salvation Army and Yan Chai Hospital. In fact, there are various resources available in the community that can render appropriate relief measures to families facing short-term financial difficulties as a result of unexpected incidents.
