Ms. Sophie LAU  
Clerk to Panel on Transport  
Legislative Council Secretariat  
Legislative Council Complex  
1 Legislative Council Road  
Central Hong Kong

Ms. LAU,

**Legislative Council Panel on Transport  
Pier Improvement Programme**

Regarding Item 1 of the list of follow-up actions ref. LC Paper No. CB(4)1222/17-18(2) under the Legislative Council Panel on Transport, requesting the Administration to provide the names and locations of the 10 public piers under the **Pier Improvement Programme (PIP)** and details of the improvement works to be carried out, our response to the request is given below.

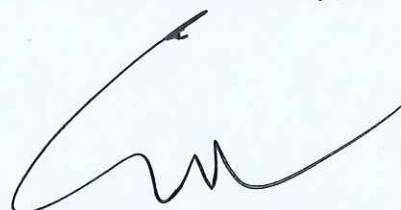

2. The Government has launched the PIP to fast-track the implementation of improvement works for piers in the New Territories and outlying islands in January 2017. The improvement works may include enhancing the structures and facilities of a number of existing public piers or, where necessary, reconstructing the existing piers, so as to enhance public safety, improve the accessibility to some remote scenic spots and natural heritage and respond to requests for meeting the basic needs of local villagers that rely on boats as their main transport mode and supporting fishermen's operation.

3. We have set up a **Committee on Piers**<sup>1</sup> (the Committee) to examine the requests received by different departments concerning improvement suggestions for public piers in the New Territories and outlying islands and set priority for pier improvement items under the PIP taking into account a host of factors<sup>2</sup>. The Committee has recommended implementing a list of 10 proposed pier improvement items under the first implementation phase of the PIP. The proposed pier improvement items and their locations are indicated at **Annex 1** and **Annex 2** respectively.

4. We consulted the relevant District Councils in May and June 2017. Members generally supported the fast-track implementation of the PIP and the proposed pier improvement items under the first implementation phase in their districts. We will further consult the relevant District Councils during detailed design stage so as to determine works scopes of the proposed pier improvement items.

5. We are carrying out site investigation works and technical studies of the proposed pier improvement items. We plan to seek funding approval by the Legislative Council Finance Committee for the implementation of the PIP in the next legislative year. Subject to availability of funds, we plan to commence detailed design and construction of some pier items in 2019.

Yours sincerely,

( Stephen CW KWOK )

*for* Secretary for Development

c.c. STH (Attn: Mr. Vincent YP LEUNG) – fax. 2136 8016

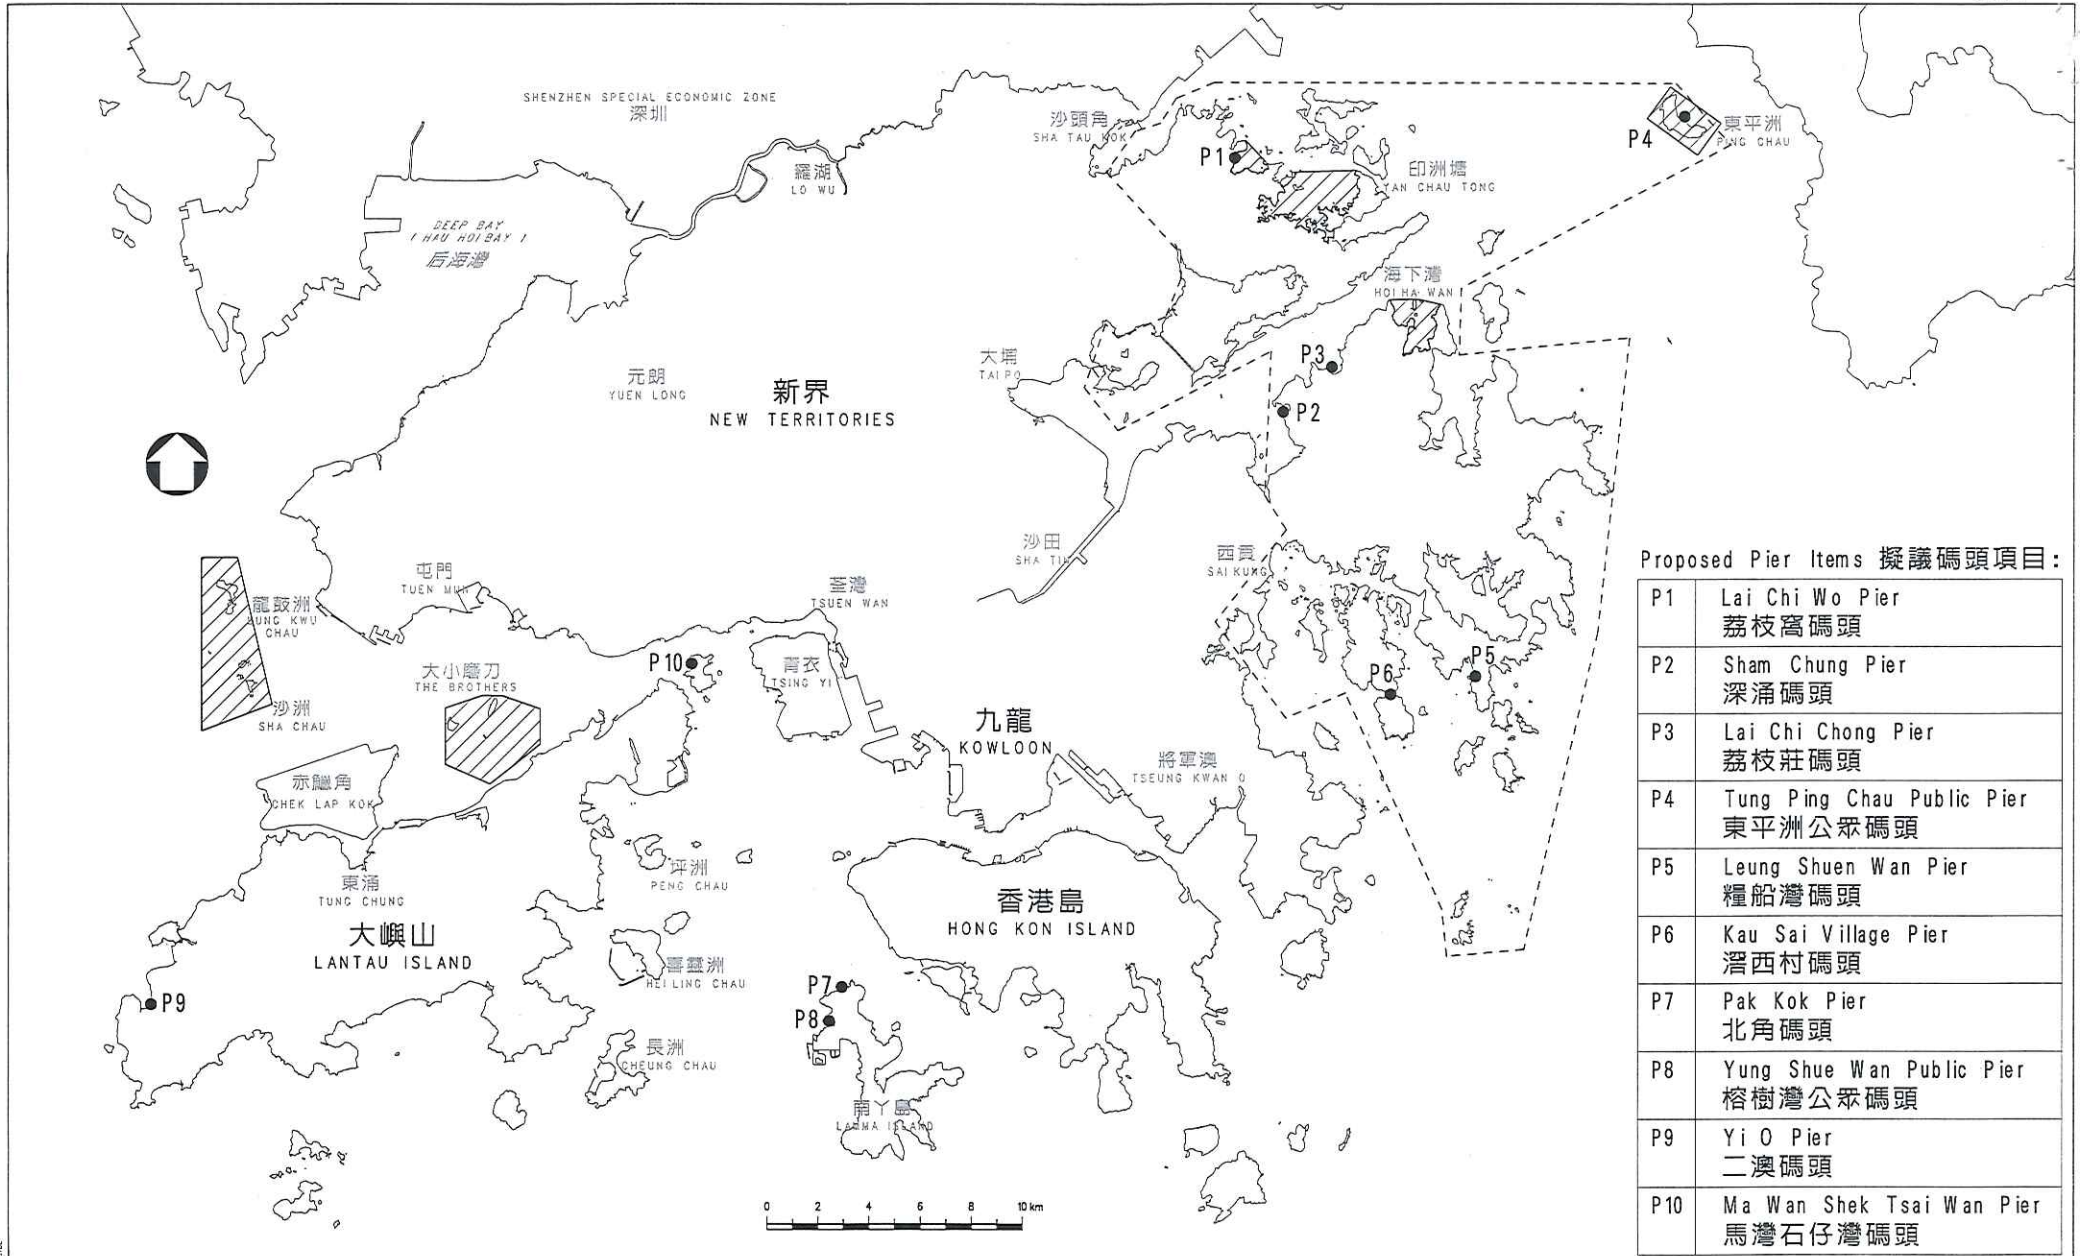

---

<sup>1</sup> Spearheaded by the Development Bureau in coordination with relevant bureaux and departments, the Committee had been set up, comprising members from the Agriculture, Fisheries and Conservation Department, the Environment Bureau/Environmental Protection Department, the Home Affairs Department, the Civil Engineering and Development Department, the Tourism Commission, and the Transport Department. Representatives from the Transport and Housing Bureau, the Financial Services and the Treasury Bureau and the Marine Department will also be invited to advise the Committee on an ad hoc basis when needed.

<sup>2</sup> The host of factors includes structural and public safety concerns, accessibility of nearby natural and heritage scenic attractions, utilisation and availability of alternative transport, requests from locals and districts, and technical feasibility.

**Proposed Pier Improvement Items under First Implementation Phase of Pier Improvement Programme**
