

For information**LEGISLATIVE COUNCIL PANEL ON TRANSPORT****Tai Lam Tunnel and Yuen Long Approach Road Tolls****Introduction**

This paper informs Members that the new concessionary tolls of the Tai Lam Tunnel and Yuen Long Approach Road (known as “Route 3”) will take effect on 1 January 2017.

Background

2. The Tai Lam Tunnel and Yuen Long Approach Road Ordinance (Cap. 474) (“the Ordinance”) stipulates the toll adjustment mechanism in respect of Route 3, under which the franchisee may effect toll increases on three specified dates (1 January of 2003, 2010 and 2017) (known as “anticipated toll increases”), on the condition that the Actual Net Revenue of the franchisee for the year immediately preceding the year in which a specified date occurs is less than the Maximum Estimated Net Revenue for that year stipulated in Schedule 4 to the Ordinance. In addition, if the Actual Net Revenue of the franchisee for any year is less than the Minimum Estimated Net Revenue for that year as stipulated in Schedule 4 to the Ordinance, the franchisee may advance an anticipated toll increase, and may implement an additional toll increase (known as “additional toll increase”) if all the anticipated toll increases have been effected. Regardless of whether it is an anticipated toll increase or additional toll increase, the magnitude of each toll increase must not exceed that stipulated in Schedule 2 to the Ordinance for various categories of vehicles. Tolls adjusted according to the mechanism stipulated in the Ordinance are called “statutory tolls”, which do not require the Government’s approval.

3. The Ordinance also provides for the establishment of the Tai Lam Tunnel and Yuen Long Approach Road Toll Stability Fund (“Fund”), and for the payment of a specified sum by the franchisee into the Fund when the net revenue of the franchisee for any year exceeds the Maximum Estimated Net Revenue for that year as specified in Schedule 4 to the Ordinance. The objective of establishing the Fund is to obviate the need for, or defer, any

statutory toll increase as payment can be made from the Fund to the franchisee when there is money in the Fund.

4. Since the commencement of operation of Route 3 in 1998, the franchisee's net revenue has consistently fallen short of the level of the Minimum Estimated Net Revenue stipulated in Schedule 4 to the Ordinance. There is therefore no balance in the Fund. By 19 June 2005, the franchisee has effected all the anticipated toll increases and subsequently has had eleven additional toll increases. The last additional toll increase effected by the franchisee to increase the statutory tolls was made on the basis that its 2011/12 Actual Net Revenue was less than the Minimum Estimated Net Revenue of that year specified in Schedule 4 to the Ordinance. The increase in statutory tolls took effect on 1 August 2016.

5. The franchisee has been offering concessions to all categories of vehicles so that actual tolls (or "concessionary tolls") are lower than the statutory toll levels. The current concessionary tolls have been maintained at the levels effected since 22 February 2015. A summary of the historical changes in Route 3's toll levels is at **Annex A**.

Latest Position

6. The franchisee has recently informed the Government that it must improve its revenue position to repay an outstanding loan of around \$1.8 billion and maintain business viability. The franchisee has therefore decided to reduce the concessions to certain types of vehicles, namely private cars, electrically powered passenger vehicles, taxis, light, medium and heavy goods vehicles, single-decked and double-decked buses with effect from 1 January 2017. Concessionary tolls of motorcycles, motor tricycles, private and public light buses, and extra axle in excess of two for goods vehicles remain the same. The existing and new concessionary tolls of Route 3 are at **Annex B**.

7. Although the franchisee has made the toll adjustments within the levels allowed in the Ordinance and does not require the Government's approval, we will continue to urge the franchisee to pay due regard to public affordability and acceptability as well as the wider public interest in devising its tolling strategy.
