**Legislative Council
Panel on Development and Panel on Home Affairs
Joint Subcommittee to Monitor the Implementation of the
West Kowloon Cultural District Project**

Follow-up to meeting on 29 May 2017

**Outcome of the public consultation exercise on the Hong Kong
Palace Museum project**

- (a) **Given that members of the Joint Subcommittee were dissatisfied with the arrangement for perusing the four consultancy study reports related to the development of the Mega Performance Venue and the Exhibition Centre (vide LC Paper No. CB(1)861/16-17(01)) on a confidential basis and with a lot of information in the reports redacted, the Administration was requested to work out with the West Kowloon Cultural District Authority (“WKCD”) an improved arrangement acceptable to members.**

Subsequent to the meeting held on 29 May 2017, the Administration and WKCD have looked into the request of members of the Joint Subcommittee regarding the arrangement for perusal of the four consultancy reports commissioned in relation to the review of the development of the Mega Performance Venue and the Exhibition Centre (“MPV/EC”) and the alternative development of the Exhibition Hub Development Area (“EHDA”) of the West Kowloon Cultural District (“WKCD”) on the MPV/EC site. Considering that the redacted content contains certain commercially sensitive and third party information, the disclosure of such information and the business parameters adopted in the reports prior to tendering will severely undermine WKCD’s commercial bargaining power and interest in relation to

future developments in WKCD including the tendering of the EHDA package by way of public-private partnership (which involves the tenderer proposing an income sharing ratio with WKCDA). After careful reconsideration of the matter, WKCDA maintains the view that only redacted copies of the reports could be provided to Members at this stage in order to safeguard its interests. As income from the EHDA development package to be shared by WKCDA will be deployed for the development and operation of arts and cultural facilities in WKCD, any action that may compromise WKCDA's position in future tendering exercise will have the negative effect of reducing the amount of financial resources available for the development and operation of arts and cultural facilities in WKCD thereby undermining the public interest.

Indeed, the major findings of the consultancy studies and the basis for the WKCDA Board's decision in relation to the review of the MPV/EC development have already been included in the paper (LC Paper No. CB(2)544/16-17(01)) submitted by the Government and WKCDA to the House Committee of the Legislative Council in early January 2017.

In the light of the foregoing, the Government accepts and respects WKCDA's decision but would ensure that WKCDA will brief Members on the proposed development parameters for the EHDA when the details are available.

(b) WKCDA was requested to provide the following information:

(i) the process for appointing a company to provide data collection and analysis services for the public consultation on the proposed Hong Kong Palace Museum ("HKPM") project, and whether and when an open tender exercise had been conducted; the reason

for not appointing a university to provide the services;

The procurement for the provision of data collection and analysis services for the public consultation exercise on the proposed HKPM project was conducted in accordance with the WKCDA's Guidelines for Procurement of General Goods and Services (Category A). As the estimated value of the contract is below \$1.5 million, the procurement was made through a request for quotation ("RFQ").

Following the announcement of the commencement of the public consultation exercise on 10 January 2017, the RFQ with a brief for the specification of the consultancy services was issued to seven potential suppliers on 16 January 2017. The seven suppliers included private research companies as well as various institutions/organisations including the strategic professional service arm of a local university.

As of the submission deadline on 20 January 2017, three out of the seven invited suppliers in the RFQ had returned their quotes. Among them, two passed the technical assessment and were invited to present their technical proposals to WKCDA on 23 January 2017. Consumer Search Hone Kong Limited ("CSG"), known as Consumer Search Group globally, was subsequently awarded the contract to provide the data collection and analysis services on 3 February 2017.

(ii) the raw data (without personal data) of the public opinion poll conducted by the Consumer Search Hong Kong Limited for the proposed HKPM project.

Tables of all of the views collected from the public opinion poll on the proposed HKPM project conducted

from 28 February 2017 to 7 March 2017 are set out at **Annex.**
