### Panel on Environmental Affairs

#### **Motion passed under agenda item III on "Briefing by the Secretary for the Environment on the Chief Executive's 2017 Policy Address" at the meeting on 30 October 2017**

In order to increase the proportion of electric vehicles ("EV") among registered vehicles, this Panel urges the Government to raise the current cap on the first registration tax concession for electric private cars and offer financial concessions for "one-for-one" replacement, so as to provide incentives for people to switch to purchasing electric private cars and promote the long-term development of the EV market.
