本委員會促請政府必須積極增加本港油站數目，檢討現有油站用地的投標制度，並研究重新引入 95 辛烷值汽油產品；同時，當局應研究可行方法，提供碼頭倉庫設施讓新經營者進口燃油，以及探討其他燃油供應來源，以紓緩車用燃油市場高度集中現象，進一步促進市場競爭，降低產品價格，令消費者受益。

**Panel on Economic Development**

**Motion passed under agenda item II on  
"Update on the tendering system for petrol filling station sites and  
follow-up to the auto fuel study conducted by the Competition Commission"  
at the meeting on 17 July 2018**

This Panel urges that the Government must proactively increase the number of petrol filling stations ("PFS") in Hong Kong, review the existing tendering system for PFS sites and study the re-introduction of 95 RON petrol products; at the same time, the authorities should examine practicable means to provide terminal storage facilities to enable new entrants to import fuel and explore alternative sources of fuel supply to ameliorate the situation of the auto-fuel market being highly concentrated, with a view to further promoting market competition, lowering product prices and, in turn, benefiting consumers.
