

## **Research Endowment Fund**

Financial statements for the year ended 31 August 2017

## ***Report of the Director of Audit***

**Audit Commission**  
The Government of the Hong Kong Special Administrative Region

### **Independent Auditor's Report To the Permanent Secretary for Education Incorporated**

#### ***Opinion***

I certify that I have audited the financial statements of the Research Endowment Fund set out on pages 4 to 14, which comprise the statement of financial position as at 31 August 2017, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In my opinion, the financial statements give a true and fair view of the financial position of the Research Endowment Fund as at 31 August 2017, and of its financial performance and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and have been properly prepared in accordance with section 8(3) of the Permanent Secretary for Education Incorporation Ordinance (Cap. 1098).

#### ***Basis for opinion***

I conducted my audit in accordance with section 8(5) of the Permanent Secretary for Education Incorporation Ordinance and the Audit Commission auditing standards. My responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of my report. I am independent of the Research Endowment Fund in accordance with those standards, and I have fulfilled my other ethical responsibilities in accordance with those standards. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

## ***Responsibilities of the Permanent Secretary for Education Incorporated for the financial statements***

The Permanent Secretary for Education Incorporated is responsible for the preparation of the financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and section 8(3) of the Permanent Secretary for Education Incorporation Ordinance, and for such internal control as the Permanent Secretary for Education Incorporated determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Permanent Secretary for Education Incorporated is responsible for assessing the Research Endowment Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting.

## ***Auditor's responsibilities for the audit of the financial statements***

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Audit Commission auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Audit Commission auditing standards, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose

of expressing an opinion on the effectiveness of the Research Endowment Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Permanent Secretary for Education Incorporated;
- conclude on the appropriateness of the Permanent Secretary for Education Incorporated's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Research Endowment Fund's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Research Endowment Fund to cease to continue as a going concern; and
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

## **RESEARCH ENDOWMENT FUND**

### **Notes to the financial statements**

*(Amounts expressed in thousands of Hong Kong dollars, unless otherwise stated.)*

#### **1. General**

The Research Endowment Fund (the Fund) was established by a declaration of trust made on 6 February 2009 by the Permanent Secretary for Education Incorporated (the Trustee). The Fund provides stable research funding to the University Grants Committee (UGC)-funded institutions and the self-financing tertiary institutions.

#### **2. Significant accounting policies**

##### **(a) Statement of compliance**

The financial statements have been prepared in accordance with section 8(3) of the Permanent Secretary for Education Incorporation Ordinance (Cap. 1098), accounting principles generally accepted in Hong Kong, and all applicable Hong Kong Financial Reporting Standards (HKFRSs), which is a collective term that includes all applicable individual HKFRSs, Hong Kong Accounting Standards (HKASs) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (HKICPA). A summary of the significant accounting policies adopted by the Fund is set out below.

##### **(b) Basis of preparation of the financial statements**

The measurement basis used in the preparation of the financial statements is historical cost.

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

There are no critical accounting judgements involved in the application of the Fund's accounting policies. There are also no key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities in the next year.

(c) Financial assets and financial liabilities

(i) Initial recognition

The Fund classifies its financial assets and financial liabilities into different categories at inception, depending on the purpose for which the assets were acquired or the liabilities were incurred. The categories are: loans and receivables and other financial liabilities.

Financial assets and financial liabilities are measured initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial assets or the issue of the financial liabilities.

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument.

(ii) Categorisation and subsequent measurement

*Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and which the Fund has no intention of trading. This category includes placement with the Exchange Fund, accrued interest from placement with the Exchange Fund, accounts receivable and cash at bank.

Loans and receivables are carried at amortised cost using the effective interest method less impairment losses, if any (note 2(c)(iv)).

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Fund estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees received or paid between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

*Other financial liabilities*

This category includes accounts payable. They are carried at amortised cost using the effective interest method.

(iii) Derecognition

A financial asset is derecognised when the contractual rights to receive the cash flows from the financial asset expire, or where the financial asset

together with substantially all the risks and rewards of ownership have been transferred.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or when it expires.

(iv) Impairment of financial assets

The carrying amounts of loans and receivables are reviewed at the end of each reporting period to determine whether there is objective evidence of impairment. If any such evidence exists, an impairment loss is recognised in surplus or deficit as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. If in a subsequent period the amount of such impairment loss decreases and the decrease can be linked objectively to an event occurring after the impairment loss was recognised, the impairment loss is reversed through surplus or deficit. A reversal of impairment losses is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years.

(d) Revenue recognition

Government grants are recognised as income in the period in which they are receivable. Interest income is recognised in surplus or deficit on an accrual basis, using the effective interest method.

(e) Research grants

Research grants are recognised as expenditure when they are approved except that in those cases where the release of grant is subject to certain conditions, such grants are only recognised as expenditure when the conditions are met.

(f) Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash at bank.

(g) Impact of new and revised HKFRSs

The HKICPA has issued certain new and revised HKFRSs that are first effective or available for early adoption for the current accounting period. There have been no changes to the accounting policies applied in the financial statements for the years presented as a result of these developments. The Fund has not applied any new HKFRSs that are not yet effective for the current accounting period (note 8).

### **3. Interest income from placement with the Exchange Fund**

This represents income earned from the placement with the Exchange Fund at a fixed rate determined every January (note 5).

### **4. Research grants**

	<b>2017</b>	2016
Research grants paid/due for payment	<b>1,060,515</b>	639,029
Refund of unused grants	(49,545)	(51,402)
	<b>1,010,970</b>	<b>587,627</b>

### **5. Placement with the Exchange Fund**

The balance of the placement with the Exchange Fund amounted to HK\$26,048 million (2016: HK\$26,182 million), being the principal sums of HK\$22,550 million (2016: HK\$22,550 million) plus HK\$3,498 million (2016: HK\$3,632 million) interest paid but not yet withdrawn at the end of the reporting period. The term of the placement is six years from the respective date of placement, during which the amount of principal sums cannot be withdrawn.

Interest on the placement is payable at a fixed rate determined every January. The rate is the average annual investment return of the Exchange Fund's Investment Portfolio for the past six years or the average annual yield of three-year government bond for the previous year subject to a minimum of zero percent, whichever is the higher. The interest rate has been fixed at 2.8% per annum for the year 2017 and at 3.3% per annum for the year 2016.

### **6. Commitments**

As at 31 August 2017, grants approved but not yet due for payment (note 2(e)) amounted to approximately HK\$1,795 million (2016: HK\$1,519 million).

### **7. Financial risk management**

#### **(a) Investment management and control**

The Trustee may invest moneys of the Fund in accordance with section 5 of the Permanent Secretary for Education Incorporation Ordinance.

Under the declaration of trust, the UGC may, directly or via the UGC Secretariat, advise the Trustee on the policies and procedures governing the operation and development of the Fund, and the policies governing the investment of the Fund.

The income from placement with the Exchange Fund should in general be able to fully cover the cash flow requirements for funding research as well as the disbursements incidental to its administration on an ongoing basis.

The investment management and control of the Fund are set out in a documented risk management and investment strategy and are reviewed on a regular basis by the UGC.

(b) Market risk

Market risk is the risk that changes in market variables such as interest rates and currency exchange rates, may affect the fair value or cash flows of a financial instrument.

(i) Interest rate risk

Interest rate risk refers to the risk of loss arising from changes in market interest rates. This can be further classified into fair value interest rate risk and cash flow interest rate risk.

Fair value interest rate risk is the risk that the fair value of a financial instrument will fluctuate because of changes in market interest rates, causing a financial loss to the Fund. Since the Fund's financial instruments are stated at amortised cost and not at fair value, they are not subject to fair value interest rate risk because their carrying amounts will not be affected by changes in market interest rates.

Cash flow interest rate risk is the risk that future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund does not have a significant exposure to cash flow interest rate risk because it has no significant floating-rate financial instruments.

(ii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in currency exchange rates.

The Fund does not have an exposure to currency risk as all of its financial instruments are denominated in Hong Kong dollar.

(c) Credit risk

Credit risk is the risk that an issuer or a counterparty will cause a financial loss to the Fund by failing to discharge an obligation. Loans and receivables are potentially subject to credit risk. The Fund selects counterparty with good credit standing, strong financial strength and sizeable capital. The Fund also limits the individual exposure, in accordance with a documented risk management and investment strategy, and monitors credit risk on a continuous basis.

The credit quality of cash at bank at the end of the reporting period, analysed by the ratings designated by Moody's or their equivalents, is shown below:

	2017	2016
Aa3 to Aa1	—	15,492
A3 to A1	<u>24,682</u>	—
	<u><u>24,682</u></u>	<u><u>15,492</u></u>

For the placement with the Exchange Fund, the credit risk is considered to be low.

The maximum exposure to credit risk of the financial assets of the Fund is equal to their carrying amounts at the end of the reporting period.

(d) Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities. The Fund monitors the liquidity requirements on a continuous basis and maintains a level of bank balances to pay grants as necessary. Hence the Fund does not have significant exposure to liquidity risk.

As at 31 August 2017, the remaining contractual maturities of all financial liabilities, based on contractual undiscounted cash flows and the earliest date on which the Fund can be required to pay, were six months or less (2016: six months or less).

(e) Other financial risk

The Fund is exposed to financial risk arising from changes in the interest rate on the placement with the Exchange Fund which is determined every January (note 5). It was estimated that, as at 31 August 2017, a 50 basis point increase/decrease in the interest rate, with all other variables held constant, would decrease/increase the deficit for the year by HK\$130 million (2016: increase/decrease the surplus for the year by HK\$131 million).

**8. Possible impact of amendments, new standards and interpretations issued but not yet effective for the year ended 31 August 2017**

Up to the date of issue of the financial statements, the HKICPA has issued a number of amendments, new standards and interpretations which are not yet effective for the year ended 31 August 2017 and which have not been early adopted in the financial statements. These include the following which may be relevant to the Fund:

**Effective for accounting periods beginning on or after**

HKFRS 9, *Financial Instruments*

1 January 2018

The Fund is in the process of making an assessment of what the impact of these amendments, new standards and interpretations is expected to be in the period of initial adoption. So far, it has concluded that the adoption of them is unlikely to have a significant impact on the financial statements.
